ENTRY^{DOORS}

Built for the Canadian Climate

Madero's Entry Series door systems are tailored to withstand the extreme Canadian climate. A versatile program featuring single exterior door openings used throughout your home and yard. Steel and fiberglass slabs are partnered with wood, composite or aluminum clad frames. Madero doors are built with quality and performance in mind, with options to fit your style and budget.

DESIGNER ENTRY^{SERIES}

Designer Entry Series

Modern designs with the functionality of the Entry Collection. Madero offers a popular line-up of entry doors that provide the utmost street appeal. Our doors are built with quality and performance in mind; perfect for all single openings. For designer options to fit your style and budget - choose Madero.

Black & White Series

This system features a factory Polytex finish: black on the exterior, white on the interior. The frame is clad with black aluminum to the exterior and is complete with slimline aluminum brickmould. Available as inswing only.

DESIGNER ENTRY SERIES

3 LITE

Renovate with style and choose a 3 Lite modern door. The Frosted Low E glass gives a highly private entryway, while Clear Low E provides maximum light and viewing. This photo showcases optional factory painting in Buttercup.

DESIGNER ENTRY

SERIES

SPOTLITE MODEL 842 - 5 LITE

Architectural style is what gives a home its character. The Spotlight Model 842 features five 22" x 3" factory-installed horizontal inserts. Available in Clear or Frosted glass. This image showcases the Black & White series, with owner supplied-custom brickmould.

ONE LITE

A One Lite door system is perfect for every entryway in your home. When choosing Frosted Low E glass, the unit gives complete privacy while still allowing light to filter through. Clear Low E provides maximum viewing to your outdoor space. This photo showcases optional factory painting in Melon.

DESIGNER ENTRY SERIES

4 LITE

A 4 Lite door system creates a statement both inside and out. This style wins as the designer's choice every time. When choosing Frosted Low E glass, the unit gives complete privacy while still allowing light to filter through. Clear Low E provides maximum viewing to your outdoor space. This photo showcases optional factory painting in Ash.

NARROW LITE

Trends come and go, good designs last. The Narrow Lite features a 7" x 64" insert installed on either the left or right hand side of your door. Available in factory-installed Clear or Frosted glass. This image showcases black painting inside and out.

DESIGNER ENTRY SERIES

SPOTLITE MODEL 840 - 3 LITE

A retro look that is even more popular today than it was back then. The Model 840 3 Lite features 12" x 12" factory-installed inserts centered in the door. Available in Clear or Frosted glass. This photo showcases the Black & White series.

ECONOMY^M

Import Warm White Steel Slab
Wood Frame

The Economy entry level unit, designed specifically for garages and outbuildings, combines a primed steel inswing 6 panel door with a wood frame.

STEEL SLAB

SIZES: Width: 2/8, 3/0 - Height: 6/8

STEEL: 6 panel import, 24 gauge primed warm white steel slab with primed wood stiles, wood top rail and composite bottom rail. Polyurethane core with 12" wood lock block.

DRILLING: Available with double drilling only. Complete with mortised face plate for superior hardware installation. Inswing only.

WOOD FRAME

Kiln dried, finger jointed primed pine available in 4-9/16" or 6-9/16" jamb depth. Available with or without 180 Step Brickmould. Must specify at time of ordering.

WEATHERSEALS

FIXED SILL: Extruded aluminum in mill finish with composite substrate.

SILL GASKETS: Prevent rain penetration and avoids messy caulking.

DOOR SHOE: Premium white vinyl adjustable shoe.

CORNER PAD: Simple solution corner pad helps eliminate air and water leaks.

WEATHERSTRIPPING: Bronze

HINGES

Ball bearing hinges in zinc finish.

WARRANTY

5 year limited manufacturer's warranty on door slab.
5 year limited manufacturer's warranty on frame and components if painted within 45 days of purchase.

DOOR DESIGNS AVAILABLE

6 Panel only

M BASIC

High Definition Steel Slab
Wood Frame

The Basic offers style, function and most importantly, affordability. It features high definition bright white steel combined with a wood frame for an economical and steadfast entry solution.

STEEL SLAB

SIZES: Width: 2/6 (6 panel only), 2/8, 2/10, 3/0 - Height: 6/8

STEEL: 24 gauge primed high definition steel, bright white, with primed wood stiles and rails. Polyurethane core with 12" wood lock block.

DRILLING: Available in single or double drilled. Complete with mortised face plate for superior hardware installation.

Available in inswing and outswing.

GLASS

Glass inserts can be factory installed in the 6 Panel 23" x 37" cutout. For designs refer to page 23.

WOOD FRAME

Kiln dried, finger jointed primed pine available in 4-9/16" or 6-9/16" jamb depth. Brickmould factory installed.

FRAME CLADDING

Available with white or black aluminum cladding (exterior of jamb only) with optional slimline aluminum brickmould. Not available in outswing units.

WEATHERSEALS

FIXED SILL: Extruded aluminum in mill finish with composite substrate.

SILL GASKETS: Prevents rain penetration and avoids messy caulking.

DOOR SHOE: Premium white vinyl adjustable shoe.

CORNER PAD: Simple solution corner pad helps eliminate air and water leaks.

Nouveau glass insert - Black

Fits any 6 panel door.

Madero's door glass inserts provide an easy do-it-yourself project and are a great way to enhance the beauty of your home's entry system.

Choose from several different glass options, all of which can be installed into an industry standard 23" x 37" half-lite cut out.

Madero's Door Glass Features:

- Door glass designs use handcrafted glass in a variety of textures to create dimension, depth, contrast, and privacy while allowing natural light to enter the home.
- Madero's decorative glass is sealed between two panels of tempered safety glass and insulated for air and water-tight performance.
- 10 year glass seal warranty.
-  Low E coating with Argon gas.

PRIVACY RATING

1 - Transparent
Objects can be seen clearly through the glass from the other side.

5 - Diffused
Objects are diffused, but still detectable through the glass from the other side.

10 - Private
Only light will travel through the glass from the other side.

Pre-Finishing Options

Madero has identified and selected some of the most popular paint and stain colours. Streamline the colour matching process for your project by selecting from Madero's popular colour choices.

Doors left manufacture white will have varying shades of white due to the natural products used.

Contact your supplier for more details.

ADD-ONS & OPTIONS

ENTRY SERIES

Customize Your Door

Madero's Entry Series door systems have been developed to meet the needs of both residential and commercial environments. Ordered from factory, the add-ons shown below further enhance the door systems for use in your home, garage, shed, or outbuilding.

Self-Closing Hinges

These hinges are placed in the bottom and middle hinge pockets to pull the door shut after it has been opened and released. Tension is to be adjusted on site.

Door Viewer

Allows sight through the door. Cannot be used with any half lite glass options.

GW124 Shoe

Shoes are attached to the bottom of your door to provide draft protection. The PVC and mohair fins provide an air tight seal between the sill and the door.

PP3322 Brickmould

Primed double bead finger joint pine brickmould can replace 180 step brickmould. Specify at time of ordering.

Commercial Sill

Low profile access provides an uninterrupted entry line, allowing ease of mobility for lawnmowers, dollies, etc. Standard sweep not recommended. Net Frame height: 80-1/8" Ideal for sheds, garages & outbuildings.

Commercial Sweep

Designed for use in conjunction with the commercial sill.

Energy Star and/or NAFS Compliant

NAFS Sill, with an articulating cap is required in construction requiring a building permit in most Canadian jurisdictions. ENERGY STAR products are independently certified to save energy without sacrificing features or functionality.

Inswing Net Frame height: 82-1/4"
Outswing Net Frame height: 81-1/4"

ADaptive Sill System

Low profile access provides for ease of mobility for wheelchairs. See Page 27 for more details.

ADaptive Sill System

Low profile access provides for ease of mobility for wheelchairs. The thermal break in the sill deters frost buildup. An innovative jamb boot supports a weather-tight seal and secure corner assembly. Full length caulking strip eliminates water penetration.

DOOR SPECIFICATIONS

ENTRY SERIES

Steel Doors

Steel doors have been the choice for residential usage for over 50 years. The variety of new panelled designs have maintained the popularity of the steel door.

5 YEAR
Limited
Manufacturer's
Warranty

Novatech®

Madero Import

Finish with Ease

Economy units use a Madero import 24 gauge steel slab with a primed warm white finish. Basic and Dakota systems use a N300 primed white finish. Madero systems require no additional paint to achieve a 5 year limited warranty. Doors can easily be painted to match the style of your home - consider factory pre-finishing for your door and frame.

Durability

24 gauge door skins interlock with the stile, providing additional support to reduce delamination and stretching. Steel door skins will not crack or warp, unlike wood.

Strength

A 12" wood lock block provides additional strength and structure to support most residential hardware.

Energy Efficiency

Filled with an insulating core of 100% CFC free polyurethane foam, providing a superior energy rating over a standard styrene core product.

Cost

Steel entry doors are more affordable compared to wood or fiberglass.

Fiberglass Doors

Built for the Canadian Climate

In 2005, Madero partnered with NanYa Plastics, a world leader in the manufacturing of fiberglass, working with Canadian R & D Corp. to develop a maintenance free door and frame system, which meets the climate conditions found within the Canadian market.

25 YEAR
Limited
Manufacturer's
Warranty

Finish with Ease

Smooth white fiberglass doors are supplied in their natural pre-pigmented warm white finish. Though painting is not required to achieve a full 25 year limited warranty, doors can easily be painted to the color of your choosing.

To achieve a realistic, rich appearance. Refer to page 25 for factory finish information.

Durability & Performance

Fiberglass skins are resistant to dents, dings, splintering and corrosion. The rigid structure of our fiberglass doors prevent bowing and warping in extreme temperatures.

Exceptional Security

The full length steel reinforced wood lock block offers a high level of security, while allowing a range of hardware mounting options.

Completely Waterproof

Waterproof composite stiles and rails are sealed and finished to protect all edges of the door from moisture penetration, which can harm the inner insulation and cause rotting.

Energy Efficiency

Filled with an insulating core of 100% CFC free polyurethane foam, providing an excellent R rating, while bonding the two door skins together for additional strength

DOOR FRAMES

ENTRY SERIES

Simple Solutions® Corner Pad Weatherstripping

Small in size but big in impact. The Simple Solution Corner Pad seals out air and moisture.

Compression weatherstrip seals tight when the door is closed and expands when opened, providing a long-lasting weather-tight solution.

Ball Bearing Hinges

All Madero Entry Series door systems ship complete with 4" x 4" ball bearing hinges. Madero's standard hinge finish is C-2G zinc plated.

Metal Cladding Options

Entry Series available with white or black aluminum cladding (exterior of jamb only). Brickmould options include slimline aluminum brickmould or aluminum clad #3322 double bead wood brickmould.

Cladding not available on outswing.

Snaplock Nailing Fin

(Maerick, Titan, Workhorse SteelComp, Workhorse FiberComp only.)

Incorporating a hinge-style design, Madero's SnapLock nailing fin snaps into place for new home construction or can be scored and trimmed if not required.

Wood Frame

Kiln dried, primed finger-joint pine—double primed for quality performance and ease of painting. Wood frame requires paint on all exposed surfaces within 45 days of purchase.

Composite Frame

Pre-pigmented smooth white frame components are a blend of PVC and wood fiber composite substrate. Composite will not discolour, absorb moisture, splinter, or rot. Smooth white composite does not require paint.

What to Know Before You Order

Entry Series doors are available in standard widths and 6'8" door slab heights, with single or double drilling to accommodate levers, knobs, handlesets, and deadbolt hardware. Door handles and deadbolt hardware are sold separately.

Product Comparisons

Entry Series door systems are available in a variety of door slab and frame choices.
