2/8, 2/10, 3/0  
PLUS23 | FC23

**Narrow Lite**

6/8 Height  
2/8, 2/10, 3/0, 3/6

8/0 Height  
3/0, 3/6  
PLUS11 | FC11

**4 Lite**

6/8 Height  
2/8, 2/10, 3/0  
PLUS14 | FC14

#### When Adding Glass:

*Integrated  
Flush Glazed  
Glass Frame*

These slabs provide sleek lines and the perception of a more enhanced viewing area. The smooth white pre-pigmented slab is consistent from door edge to glass. The slab is manufactured as a one piece open and beaded mould with glass installed directly during the assembly process.

### STANDARD DESIGNS

**Flush**

6/8 Height  
2/8, 2/10, 3/0, 3/6

8/0 Height  
2/8, 2/10, 3/0, 3/6

Premium Composite Frame

#### **Entrada**

Woodgrain Fiberglass Door  
Woodgrain Composite Frame

*Plus door\* and sidelite system with Spotlites Model 840 Chain Link glass. Shown with Schlage Latitude Lever and B60 Cylindrical Deadbolt in Bright Chrome<sup>†</sup>.*

2

### Choose Your Glass for Door & Sidelite

If door and sidelite glass is required, choose from glass selections found on pages 64-65.

#### Select Your Transom Glass

Choose from the available decorative glass inserts or Clear Low-E. Refer to glass chart on pages 64-65.

3

### Choose a Fixed vs. Venting Sidelite

Fixed sidelites are incorporated directly into the frame system as a complete unit. Available in 14" sidelites.

Venting sidelites are full panel—venting to the exterior, as viewed from inside your home.

- **Truth Hardware** provides smooth and easy opening. Available in white, brushed chrome and bronze.
- **Standard Window Screen** positioned to the inside of the home.
- **Sash locks / Tie Bar** with low profile design included.

4

### Size Chart and Checklist

Refer to pages 70-71 for guided steps in ordering your panelled sidelite or direct glazed transom.

*Venting Sidelite - Interior view*

*FiberComp 2 Panel 3/4 Lite door\* and sidelite with Vignette glass.*

*Entrada with Teak Woodgrain door\*, 14" Clear Low-E Direct Glazed sidelites and transom†.  
Shown with 16" SoftMet™ Straight Pull and Schlage L460P High Security Mortise Lock.*

# Door System Configuration

## WITH DIRECT GLAZED SIDELITES & TRANSOM

Consistent with the modern appeal of the flush glazed door design, direct glaze sidelites and transoms provide full unobscured glass coverage. Glass extends edge to edge, with no need for a sidelite door panel, allowing sunlight in to brighten your entryway.

Pair any single entry system with one or two direct glazed sidelites and/or transom. Choose from Frosted or Clear Low-E glass options.

1

### Choose Your Door

Select from one of the brands listed below  
(See door design options on pages 4-15).

#### **PREMIUM**

High Definition Steel Door  
Premium Wood Frame

#### **PLUS**

Fiberglass Door  
Premium Wood Frame

#### **STEELCOMP**

High Definition Steel Door

ARTISAN

COLLECTION

# Garden Patio Configuration

## OPTIONS

Madero garden patio doors offer three select choices for your new construction or renovation project. Choose from single-hinged, double-hinged or garden venting door systems, offered in a variety of sizes, to fit your project.

*Shown as LH Inswing*

### SINGLE HINGED

#### One Door Active | One Door Fixed

Ideal for accommodating multiple doors – creating a spectacular view

One door is fixed while the other opens as an active door. Fixed doors create the illusion of a full lite sidelite, allowing additional sunlight in to fill your room and provide a full view of the outdoors.

*Shown as Outswing*

### DOUBLE HINGED

#### One Door Active | One Door Inactive

Full clearance double door system – provides the beauty of a garden patio door with full access to the outdoors

Complete with multipoint astragal, this product allows the inactive door to be securely locked and sealed or active as required. Active door must be double drilled.

*Available as 6/8 Outswing only*

### GARDEN VENTING

#### One Door Active | One Door Venting

Designed to provide easy access to outdoor living spaces – as well as ventilation and natural light

These garden doors feature the active door as a typical swing door with optional sash lock. Specify single or double drilling. The venting door is complete with standard screen, roto hardware, and sash locks with tie bar.

For a complete Garden Patio brochure and order form please visit [www.madero.ca](http://www.madero.ca)

## Light-Touch® Enclosed Blinds

### RAISE, LOWER & TILT WHITE BLIND

\$

Light-Touch fully enclosed blinds give you a maintenance-free option for controlling levels of doorglass privacy. A single control lets you raise, lower, or stop anywhere in between, and tilt for full privacy, no privacy, or anything in between. Light-Touch blinds provide full coverage of your doorglass, so sunlight, moonlight, and streetlights stay out-unless you invite them in.

Available in Low-E glass only.

# Clear Glass

## CLEAR LOW-E

\$

A perfect choice for the unobstructed view of your outdoor spaces.

### Low-E coating is featured in all function glass options

Low-E glass is made with an invisible thin metallic coating that blocks heat flow. A proven energy saver, low-E glass reduces air conditioning costs by reducing solar transmissions in the summer. In the winter it reduces heat loss to the outside and allows solar energy to pass inside. It also reduces fading of carpet and furniture.

*Blocks ultraviolet rays*

*Allows solar energy in*

### COMBINATION SYSTEMS†

#### COMBOPLUS<sup>M</sup>

##### *Made for the Canadian Climate*

Madero ComboPlus door systems are designed to provide a durable, energy efficient and easy to install entry solution while incorporating a higher quality product than the typical aluminum storm door.

**Widths:** 2/8, 2/10, 3/0

**Heights:** 6/8 only

**Jamb Depth:** 6-9/16" only

† Madero combination systems are also available in Entry Series Workhorse Combo and Workhorse ComboPlus designs, featuring standard 1-3/4" 6 panel door with half lite storm door. For more information, visit [www.madero.ca](http://www.madero.ca).

# Hardware

## DRILLING OPTIONS

Choose your hardware from any selection of brand or style. Please specify at the time of ordering: single drill, double drill or the modern pull with deadbolt option. Multipoint hardware is now available for single door configurations.

### Option 1:

#### Single Drill

**Ideal for:**

Single lever or knob style hardware.

### Option 2:

#### Double Drill

**Ideal for:**

Handleset, lever or knob with deadbolt hardware.

### Option 3:

#### Multipoint Hardware for Single Door

Multiple locking points simultaneously latch into place through the action of a continuous drive rail, providing security to the perimeter of the door.

### Option 4:

#### Deadbolt / Pull Option

European styling is achieved with a modern pull and deadbolt combination. The door system includes two architectural grade roller latches. See page opposite.

## Residential Hardware

### MULTI-POINT

Multi-point hardware is designed to lock at several points throughout the height of the door, making the lock side of the door as secure as the hinge side and providing an exacting seal around the perimeter of the door. Madero's multi-point hardware selections will add character and enduring value to every door in your home. All hardware is specially crafted to resist wear, and like the door itself, will last a lifetime. Made of solid brass, each handle can be personalized with your choice of finish to complement your personal style.

#### Available Finishes

### HINGE OPTIONS

Hardware is not an afterthought, but an important design decision. Once you have chosen your door style, it is the time to give thought to what you will use for door hardware. Door hinges look their best when matched to the locksets and glass coming you plan to use. Madero's standard hinge finish is C-2G Zinc Plated, though we will change the finish based on the hardware or glass that you've chosen.

#### 4" x 4" Ball Bearing Hinges

Ball bearing hinges offer the smoothest and quietest option for door operation, while providing added support and stability.

#### Self Closing Hinges

Fire rating of 20 minutes requires a self closing mechanism for all suite entry openings.

- Satin Chrome finish
- Quality wood screws and undercut machine screws are included

# Hardware

## OPTIONS

## Architectural Door Pulls

The Rockwood Collection of architectural hardware is designed with strict attention to detail, from the selection of top-grade materials to application of the finest finishes, resulting in a product of the highest caliber for decades of lasting beauty. Madero stocks four families of Rockwood door pulls to choose from: SoftMet, NoirTek, MegaTek, and NeoTek. Choose from a 16", 36", or 60" stainless steel door pull, and then choose your locking hardware. All door pull systems are constructed with two architectural grade roller latches. For more options refer to [www.madero.ca](http://www.madero.ca).

### NoirTek™ Collection

(Straight RM3910 / Offset RM3940)

NoirTek's durable black hard coat anodized grip complements many design schemes and is an appealing finish on its own.

- 16" CTC x 1-1/4" diameter straight or offset pull
- Black hard coat anodized grip, stainless steel mounts

Size:

### NeoTek™ Collection

(Straight RM3210 / Offset RM3240)

NeoTek's satin finish GripZone contact area hides small marks and scratches caused by rings, jewelry, and keys.

- 16" CTC x 1-1/4" diameter straight or offset pull
- Post mounted "GripZone" design
- Stainless steel

Size:

### SoftMet™ Collection

(Straight RM2510 / Offset RM2540)

- Durable, weather-resistant black Santoprene™ grip—a high performance engineered thermoplastic elastomer
- 16" CTC x 1-1/4" diameter straight or offset pull or 36" CTC x 1-1/4" diameter offset pull
- Stainless steel ends and mounts

Sizes:

### MegaTek™ Collection

(Offset RM3311)

Ladder pulls are an artful and functional solution for a dramatic entrance design.

- 36" CTC or 60" CTC x 1-1/4" diameter offset pull
- Polished stainless steel

Sizes:

### Availability Chart

		16" Offset/ 16" Straight	36" Offset	60" Offset
1.	NoirTek	•	—	—
2.	MegaTek	—	•	•
3.	NeoTek	•	—	—
4.	SoftMet	•	•	—

### Offset vs. Straight

Offset vs. straight product styling is usually determined based on the aesthetics you are hoping to achieve, and the functionality required to ensure you have a product which meets your everyday needs.

Offset pulls are designed to incorporate a deadbolt along the length of the pull, allowing additional clearance when locking/unlocking the deadbolt, whereas a straight pull incorporates the deadbolt installation above the pull.

For more information on Madero's selection of Architectural Door Pulls, visit [www.madero.ca](http://www.madero.ca)

## Locking Hardware Options

### Cylindrical Deadbolt (B60)

- Cylindrical deadlock
- Anti-pick shield protects against hammer and crowbar attacks
- Fits into standard 2-1/8" hole
- Lifetime finish and mechanical guarantee
- Grade 1 - Highest Residential Security Rating
- Finishes: Matte Black, Satin Chrome

### High Security Mortise (L460P)

- High security mortise lock
- 3 year limited manufacturer's warranty
- Exceeds Grade 1 testing
- Minimalistic cylinder for architectural or European design
- Solid stainless and brass components
- The best in traditional keyed entry locks
- Finish: Satin Chrome

### Roller Latch (RL30)

- Maximum projection of the roller is 3/8" allowing for variance in the door clearance
- Nylon roller standard
- Stainless steel construction
- Finishes: Stainless Steel, Oil Rubbed Bronze

### Sense Bluetooth Deadbolt (BE479 CAM / CEN)

- Keyless entry with access code - 30 code user capacity
- Easy to pair with your smartphone through Bluetooth Smart technology
- Battery-operated, no hardwiring required
- Easy to install
- 3-year limited electronics warranty
- Grade 1 - Highest Residential Security Rating
- Finishes: Camelot in Satin Nickel, Century in Matte Black and Satin Nickel

*Note: Some regions may require a double latching system to meet local building codes. Contact your local building inspector for more information.*

## Architectural Door Pull Visualizer

### Determine Your Desired Product Style

Offset pulls are designed to incorporate a deadbolt along the length of the pull, whereas a straight pull incorporates the deadbolt installation above the pull.

### Back-to-Back Mounting

Back-to-back mounting features two door pulls which are connected through the door, each pull opposite the other.

All Madero fiberglass slabs feature a full height lock block for lifelong performance.

*Disclaimer: All measurements are calculated from the top left of door slab. Some regions may require specific drill locations for deadlock options. Contact your local building inspector for more information.*

## FEATURES

### STEEL DOORS

#### **PREMIUM**

High Definition Steel Door  
Premium Wood Frame

#### **STEELCOMP**

High Definition Steel Door  
Premium Smooth White  
Composite Frame

#### **Durability**

Door skins interlock with the stile, providing additional support to reduce delamination and stretching.

#### **Strength and Security**

Wood lock block provides strength and security while accommodating residential hardware.

#### **Energy Efficient**

Filled with an insulating core of 100% CFC-free polyurethane foam, providing better energy ratings than a standard styrene core product.

**5 YEAR**  
Limited  
Manufacturer's  
Warranty

**Novatech's N300 series doors** are primed for ease of painting and include a 12" wood lock block for residential hardware. Paint is not required to achieve a 5 year limited manufacturer's warranty.

**Masonite 24 gauge bright white** high definition primed steel doors feature primed wood stiles and top rail for ease of painting. 5 year limited manufacturer's warranty if painted on all exposed surfaces within 45 days of purchase.

**10 YEAR**  
Limited  
Manufacturer's  
Warranty

**Novatech's N600 series doors** are pre-finished with polytex white paint<sup>‡</sup> requiring no additional finishing to achieve a 10 year limited manufacturer's warranty. N600 doors include a 16" wood lock block for residential hardware.

<sup>‡</sup> Polytex white paint is cool white while Madero's composite frames are warm white. To achieve a uniform appearance, painting will be required.

### GLASS FRAME OPTIONS FOR STEEL DOORS

#### *Traditional Profile Insert*

The most widely used design for door glass frames has been a traditional screw-in glass insert. Usually the lowest cost option, these frames provide excellent insulation and require little or no maintenance. Traditional profile frames do not require finishing but can be painted or stained to match your door colour.

#### *Contemporary Profile Insert*

With its clean profile, this frame is the ideal choice for the modern look door with multiple cut-outs, such as the 3 lite or narrow lite.

The profile brings the focus on your door glass selection. The frame can be painted or stained.

#### *Modern Profile Insert*

**SPOTLITES**  
Door slab is cut out in manufacturing to accept modern profile spotlight inserts.

Spotlite door glass frames are constructed in high performance Fibermate<sup>®</sup> moulded and textured, that work equally well for painting or staining. The textured grain is reminiscent of classic mid-century maple and birch furniture.

## FIBERGLASS DOORS

Madero's fiberglass door systems are specifically designed to withstand the harsh Canadian climate.

### Exceptional Security

Our full length steel reinforced wood lock block offers exceptional security while allowing a range of hardware mounting options.

### Energy Efficiency

Filled with an insulating core of 100% CFC-free polyurethane foam, providing an excellent R rating, while bonding the two door skins together.

### Performance

Rigid structure prevents bowing and warping in extreme temperatures. The fiberglass skins are resistant to dents, dings, splintering, and corrosion.

### Completely Waterproof

Our full length composite stiles and rails provide complete waterproofing for the door's insulation. These stiles will not splinter like wood or delaminate like steel.

**25** YEAR  
Limited  
Manufacturer's  
Warranty

**PLUS**

Smooth White Fiberglass Door  
Premium Wood Frame

**FIBERCOMP**

Smooth White Fiberglass Door

Composite Frame

**Entrada**

Woodgrain Fiberglass Door  
Premium Woodgrain  
Composite Frame

## GLASS FRAME OPTIONS FOR FIBERGLASS DOORS

### Flush Glazed Designs

Flush glazed fiberglass slabs provide sleek lines to give the perception of a more enhanced viewing area. The pre-pigmented smooth white or oak woodgrain slab is consistent from door edge to glass. The slab is manufactured as a one piece open and beaded mould with glass installed during the assembly process.

### Traditional, Contemporary and Modern Inserts

See previous  
page for  
more details

## FINISH WITH EASE

**Steel doors** are supplied with either primed or factory white polytex finish, dependent on the product. Though painting may not be required to achieve full warranty, doors can be easily finished to match the style of your home.

**Smooth white** fiberglass doors are supplied in their natural pre-pigmented warm white finish. Though painting is not required, these doors will accept an array of paint colours to match the decor of your home.

**Woodgrain** fiberglass doors are supplied with factory almond finish, requiring paint or stain to achieve a realistic, rich appearance. Pre-finished stain options are available. Refer to page 69.

**For dark coloured finishes**, heat reflective paint is required to achieve a full warranty.

*\* Painted or stained doors are shown for marketing purposes only.*

# Complete

## FRAME SYSTEM

Madero exterior door systems are designed with high-quality components, ensuring every product incorporates a superior frame structure. All frame systems include premium extruded aluminum sill, hinges, weatherstripping and 2" 180 step brickmould (wood or composite) to complete the design.

**5 YEAR**  
Limited  
Manufacturer's  
Warranty on Frame  
Components

### Frame Components

All of Madero's door frame systems are constructed with either wood or composite jamb and brickmould components. Available in 4-9/16", 6-9/16" or 8-9/16" jamb depths.

#### Composite

Woodgrain textured or pre-pigmented smooth white frame components are a blend of PVC and wood fiber composite substrate. Composite will not discolour, absorb moisture, splinter or rot. Smooth white composite does not require paint while woodgrain composite is supplied in its raw almond finish, requiring paint or stain to achieve a realistic, rich appearance.

#### Wood

Kiln dried, primed finger-joint pine—double primed for quality performance and ease of painting. Wood frame requires paint on all exposed surfaces within 45 days of purchase.

#### SnapLock Nailing Fin (Composite only)

Incorporating a hinge-style design, Madero's SnapLock nailing fin snaps into place for new home construction or can be scored and trimmed if not required.

### Weather-Tight Solution

#### Extended Reach Weatherstrip

Compression weatherstrip seals tight when the door is closed and expands when opened, providing a long-lasting weather tight solution.

#### Gaskets & Seal Pads

Gaskets and corner seal pads allow for uniform seal pressure, enhancing the weather barrier within the frame, and providing another level of protection from the elements.

#### Adjustable Strike

Adjustable strike plates provide a snug fit between the door and jamb, guaranteeing a secure connection with the latch and reducing rattling within the frame.

#### Sill & Bottom Sweep

Combination of sill and sweep provide a tight seal against moisture infiltration at the bottom of the door system.

# Pre-Finishing

## OPTIONS

Red Mahogany

Walnut

Coffee Bean

Chestnut

## Finished to Suit Your Style

Madero has identified and selected some of the finest, most popular stain colours. Streamline the colour matching process for your project by selecting from Madero's five popular, pre-finished stain colour choices for woodgrain fiberglass doors. Contact your supplier for more details.

*Printed swatch colours may vary slightly from actual product. If you are concerned about exact colour match, we recommend you first request a product sample for accuracy.*

# Product

## MEASUREMENTS

### Finished Frame Widths

Artisan Series doors are available in 2/8, 2/10, 3/0, and 3/6 widths—as noted in design specifications—with 2x4 (4 9/16"), 2x6 (6 9/16"), 2x8 (8 9/16") jamb construction, left hand or right hand application, and inswing or outswing. **Door dimensions are based on a 14" height rectangular transom and a 12" or 14" sidelite.**

#### SINGLE DOOR (D) UNIT SIZING

Net Frame Width	
2/8	33 1/2"
2/10	35 1/2"
3/0	37 1/2"
3/6	43 1/2"

#### SIDELITE-DOOR (SD) UNIT SIZING

Net Frame Door with 12" Sidelite		Net Frame Door with 14" Sidelite	
2/8	46 7/8"	2/8	48 7/8"
2/10	48 7/8"	2/10	50 7/8"
3/0	50 7/8"	3/0	52 7/8"
3/6	56 7/8"	3/6	58 7/8"

#### SIDELITE-DOOR-SIDELITE (SDS) UNIT SIZING

Net Frame Door with 2 - 12" Sidelites		Net Frame Door with 2 - 14" Sidelites	
2/8	60"	2/8	64"
2/10	62"	2/10	66"
3/0	64"	3/0	68"
3/6	70"	3/6	74"

### Finished Frame Heights (all systems)

6/8 Inswing – Finished Frame Height: 82"

6/8 Outswing – Finished Frame Height: 81"

8/0 Inswing – Finished Frame Height: 98"

8/0 Outswing – Finished Frame Height: 97"

### Rough Opening Measurements

To calculate rough opening, add 1" to width and add 1/2" to height of net frame.

### Rough Opening Measurements to Include Transom

For all transoms, add 15 3/4" to height of net frame.

For decorative transoms, add 3/4" to width.

### OSM Brickmould

To calculate the outside measurement of the brickmould, add 2 1/2" to width and add 1 1/4" to height of net frame.

Inswing - Right Hand

Outswing - Right Hand

## CHECKLIST FOR SINGLE DOOR & SIDELITE SYSTEMS

Many details come together to create the perfect Artisan door system. Follow this important checklist to ensure your order is complete and the end result is exactly as you imagined.
