

Clean. Simple. Convenient.

Bradley's Advocate® AV-series is not only convenient for users, but also for facility managers. The all-in-one design keeps water off the floor for a cleaner, safer, and more sanitary environment.

The Advocate soap, faucet, and dryer components offer unique features designed to save maintenance staff time and money.

Soap Dispenser

- Fast, convenient top fill soap dispenser
- Large, 64 oz. capacity reservoir – fewer hours refilling
- Accommodates liquid soap

- Tamper resistant release pin helps prevent vandalism
- Easy access using spanner wrench

- Prevent overfilling – audible alert increases in duration as soap reaches the top
- Built in funnel and cover tray protect electronics

- Visible LED blinks red when the tank reaches 80% empty.

- Delay feature deters vandalism and saves soap – maximum of 6 activations within a 15 second period

Hand Dryer

- Powerful – Dries hands in 15 seconds or less
- Quiet operation – lower noise level than comparable models

- Hands free lock-out feature allows for easy cleaning. Placing hand under sensor temporarily disables dryer for 30 seconds

- Easy cleaning while dryer is deactivated

- Can be used to set personal items, supporting up to 150 lbs.

Faucet

- Top access service using allen wrench
- 0.38 gpm flow – uses 24% less water than 0.5 gpm faucet

Manufactured for Quality

- Bradley Terreon® solid surface material is repairable and easy to clean and maintain.
- Soap, faucet, dryer components made from durable, composite fiberglass reinforced polymer.
- Service kits and parts available for all components
