

Stainless Steel Sliding Track Hardware Systems

PEMKO Stainless Steel Sliding Track Hardware Systems

PEMKO offers a variety of solutions to save energy, improve acoustics, enhance aesthetics and meet life safety needs. Products include thresholds, gasketing, door bottoms, continuous hinges, and a variety of sliding and folding door systems.

The PEMKO Stainless Steel Sliding Track Hardware System provides a stylish and modern way to hang sliding glass or wood doors, typically used in facilities where space is at a premium.

Perfect for offices, hotel rooms and multi-family units, the Stainless Steel Sliding Track Hardware System is available with ten styles of door hangers and three finishes to complement any decor. The system suites beautifully with products from other ASSA ABLOY Group companies including architectural door pulls and accessories from Rockwood Manufacturing and wood doors from Graham and Maiman.

All mounting and installation hardware is conveniently packaged as kits in two standard track lengths.

Features	Benefits
Stainless Steel hangers glide along on nylon coated wheels	Smooth and quiet operation makes it appropriate for shared spaces
For wood or glass doors up to 240 lbs.	Durable system designed for a range of doors
Each hanger is equipped with an anti-rise pin	Ensures the door cannot be lifted off the track
Ten styles of door hangers that suite with Rockwood door pulls	Complements modern decor and open interiors
Meets performance requirements of ANSI/BHMA 156.14	Tested to meet strict performance standards
