For assistance, contact SARGENT at 800-810-WIRE (9473) or www.sargentlock.com

1. Install latch assembly; do not tighten at this point.

2. Plug ElectroLynx® connector from the door's raceway to the lockbody's connector, being careful not to pinch or damage wires while installing.

3. Install outside lockbody assembly using the through-bolting posts which are adjustable for various through-bolt locations.

4. Install spacer plate, aligning "Screw Slot" locations with through-bolting posts, between spring cartridge and the door.

5. Complete installation using A7133.

6. Always test completely to verify installation.
