

**STANDARD METAL
ARCHITECTURAL HARDWARE**

STANDARD METAL HARDWARE
MANUFACTURING LTD.

"QUALITY BUILDERS HARDWARE"

Standard Metal has produced some of the most exciting and intricate architectural hardware for doors in the world.

Working directly with architects and designers, our products have graced international projects as close as the Ronald Reagan Building in Washington, D.C. to as far away as the Kathmandu Airport in Nepal.

As we continue to expand globally, we are adopting the latest technologies to improve our production process.

The following pages show a sampling of our work and serve as an expression of our quality and craftsmanship.

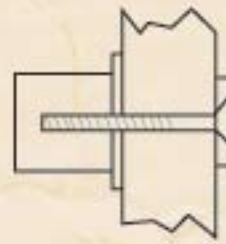

Many of the items shown can be customized to suit your needs and we welcome your architectural designs and concepts.

At any time, please feel free to contact us with your questions or to request a full company catalogue.
